

Embedded Solutions

- CPU boards and SBC
- Ruggedization and Miniaturization
- Guaranteed Longevity
- Low Power, High Performance
- Multiple I/O Interfaces
- Hardware/Software Customization
- Easy-to-use Development Kits

Multi-service IoT Gateways

- Wide Range of Models
- Multiple Connectivity Options
- Global Certifications
- Fanless
- Cellular Integration
- Highly Customizable
- Long-term Availability

Stationary Systems

- Rugged and Compact Solutions
- Industrial Computers, Panel PCs and Monitors
- CE and FCC Industrial Standards
- Environmentally Friendly
- Long Duration
- Embedded Operating System

Mobile Systems and Routers

- Rugged and Compact
- Harsh Environment Applications
- Demanding On-Vehicle Installation
- EN50155 and MIL-STD Certifications

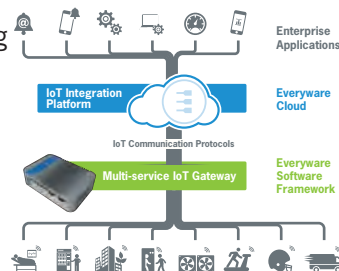

High Performance Systems

- High Reliability
- Multi-core Processors
- Liquid Cooling
- Embedded Field-deployable Applications
- HPC Architecture

IoT Software and Services

- Enabling IoT and Edge Computing Applications
- End-to-end Solutions
- OT / IT Integration
- Built-in Security
- Extend Customers Value Proposition
